green-POD changes everything in plant protection.

- green-POD – the natural way to protect and grow healthy seedlings
- Made from heavy duty, 100% recycled paper board, green-POD doesn't have plastic coatings, so it protects the surrounding environment
- Life expectancy of 18 months+, recycled paper breaks down during growth of seedling
- green-POD's natural colour reduces the visual impact
- green-POD shelters seedling from intense weather and heat fluctuations
- Simple and easy to install
- Protects from browsing animals and herbicide spray
- Convenient built in weedmat on the triangle green-POD

green-POD uses 2 x bamboo stakes or 1 x bamboo and 1 x hardwood
